

Petunias

Petunias are a popular summer-flowering annual for massed display, in pots and hanging baskets. The color range is huge, with varieties available in every color except orange. They are available as single and double blooms. Petunias are easy to grow in well-drained soil.

There are 5 main types:

- Grandiflora – have larger flowers, but not as many of them.
- Multiflora – have more flowers than Grandiflora, but not as large.
- Milliflora – have more flowers than Multiflora, but even smaller.
- Spreading – plants cover a lot of space or hang in baskets; includes “Wave” petunias.
- Hedgeflora – are vigorous and spreading, creating small “hedges” 2-3 feet tall.
